# Lê Xuân Minh Chiến

### .Net Developer

**\** 0866990209

■ lxmchien@gmail.com

• Hoàng Mai, Hà Nội

### **CAREER OBJECTIVE**

- As a .NET Developer, I aim to work in a professional environment where I can apply my backend development skills. I also aspire to strengthen my frontend abilities to become a Fullstack Developer in the future.
- My long-term goal is to become a Solution Architect

#### WORK EXPERIENCE

#### Five Star E-Learning Company

Dec 2023 - Present

#### Backend Developer

- Developed backend features using .NET Core and Entity Framework Core.
- Built RESTful APIs, optimized SQL Server queries, and created Stored Procedures.
- Applied CQRS; utilized Refit, MassTransit, and RabbitMQ for service communication.
- Developed Worker Services for background tasks.
- Implemented real-time features using WebSocket, SignalR, and integrated push notifications with OneSignal.
- Integrated third-party AI and cloud services like ChatGPT, Deepgram, Azure, and Google.

#### TIEM NANG

#### **SKILLS**

### Soft Skills

- Strong self-learning ability
- · Effective teamwork and collaboration
- Independent working, proactive, and good listening skills

#### **Technical Skills**

- Languages & Frameworks: C#, .NET Core, ASP.NET Core, Entity Framework Core, MVC, SOLID, LINQ
- Database: SQL Server, MySql, Stored Procedures
- API Development: RESTful API design and optimization
- Frontend: Angular, JavaScript, TypeScript, Blazor
- Messaging & Microservices: RabbitMQ, MassTransit
- Background Processing: Worker Services
- System Performance: Optimized queries for 1 million users, caching
- Real-time Communication: WebSocket, SignalR, OneSignal
- Architecture: Clean Architecture, DDD, Microservices
- Integrations: ChatGPT, Deepgram, Azure, Google APIs, MoMo, VNPAY
- Processing audio: Ffmpeg, SpeechToText, Pronunciation
- Processing Excel: Import, Export, Google Sheet
- Tools: Git, GitHub, Postman, Jira, Sentry, Sql Profiler

# Fsel Project

( Feb 2023 - Present )

Customer	Five Star E-Learing
Description	E-Learning software development
Team Size	5
Position	BackEnd Developer
My responsibilities	<ul> <li>Designed solutions for tasks, built and optimized backend APIs and database queries</li> <li>Handled background jobs and message queues</li> <li>Wrote complex Stored Procedures</li> <li>Handling Excel import and export</li> <li>Processing audio data with Ffmpeg</li> <li>Integrated with ChatGPT, Deepgram, Azure services, Google</li> </ul>
Technologies	.NET Core, Fsel Core, Worker Services, MassTransit, RabbitMQ, SQL Server, SignalR, WebSocket, OneSignal, Ffmpeg

# HRM Project

( Apr 2024 - Dec 2024 )

Customer	Atlantic Group
Description	Developing human resource and time attendance management software
Team Size	5
Position	BackEnd Developer
My responsibilities	<ul> <li>Collaborated with BA to analyze requirements and contribute ideas</li> <li>Built and managed the database</li> <li>Designed solutions, developed services and backend APIs</li> <li>Handled background jobs and queues</li> <li>Integrated real-time notifications with SignalR/WebSocket and OneSignal</li> <li>Assisted in task handling, bug fixing, and team training</li> </ul>
Technologies	.NET Core, Worker Services, MassTransit, RabbitMQ, SQL Server, SignalR, WebSocket, OneSignal

### Schoolink Japan/Korea

( Oct 2024 - Jan 2025 )

Customer	Atlantic Group
Description	Developing an LMS to manage classes, students, and lectures
Team Size	3
Position	BackEnd Developer
My responsibilities	<ul> <li>Designed and optimized backend APIs</li> <li>Built database and service solutions</li> <li>Supported team members in tasks, bug fixing, and training</li> </ul>
Technologies	• .NET Core, Worker Services, MassTransit, RabbitMQ, SQL Server, SignalR, WebSocket

# IT Request

( Dec 2023 - Jan 2024 )

Customer	Dai Tay Duong
Description	Developing software for request creation and progress tracking
Team Size	2
Position	BackEnd Developer
My responsibilities	Designed and optimized backend APIs     Built database and service solutions     Supported team members in tasks, bug fixing, and training
Technologies	NET Core, Worker Services, MassTransit, RabbitMQ, SQL Server
